On behalf of Dr. Green and all our team, we welcome you to our dental practice! Thank you in advance for giving us the opportunity to provide you with the highest quality of dental care available. Each member of our team is committed to serving you, so please do not hesitate to ask us anything.

Your completion of the enclosed forms will help to make your initial visit go a little more smoothly. Please bring them to your appointment.

1. Confidential Information Questionnaire
2. Dental/Medical History
3. HIPAA – Statement of Privacy Practices/Confidentiality Acknowledgement

The first form will allow us to establish accurate information for your dental accounting record. If you have dental insurance, please bring a completed form or insurance card with you. Also, many patients with complex “bite” or “joint” issues require additional diagnostic evaluation which may include a full functional analysis. Your portion of payment for your first visit is required and we will bill your insurance carrier as a courtesy, if applicable.

The second form is also very important, as it will allow us to get to know your dental and medical history. This will help us to evaluate any current medical concerns that may contribute to dental disease(s), and to explore questions you may have regarding your oral health.

The third form states that you have reviewed and acknowledged our policy regarding protection of your personal/private information.

The enclosed brochure provides additional information on our office policies and team, as well as directions on how to find us. If there is anything we can do to assist you with your initial visit, please call us at (907) 272-6122. We are all looking forward to meeting you!
